

1. Log into Pfizer.com

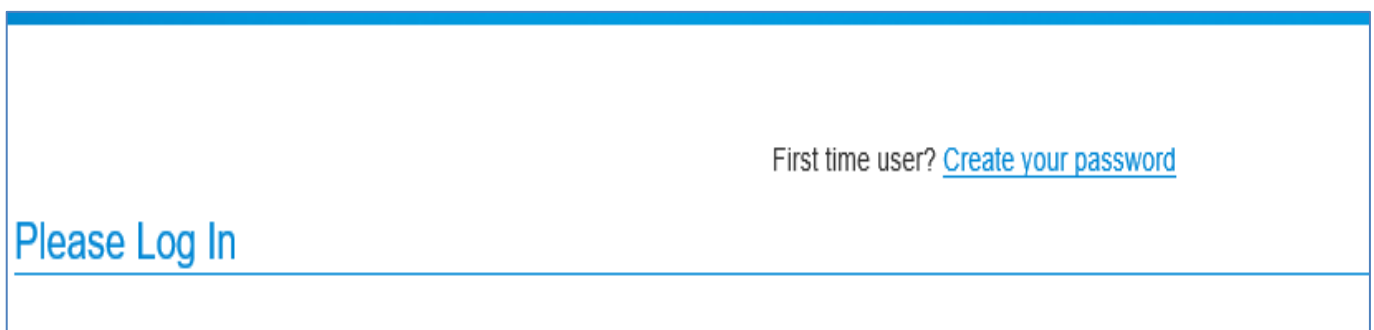

The screenshot shows the Pfizer website's 'Investigator Sponsored Research' page. The navigation bar includes the Pfizer logo, 'Science', 'Products', 'Stories', 'Newsroom', and 'About' (highlighted). On the right, there are links for 'Careers', 'Investors', a search icon, and 'Contact Us'. The breadcrumb trail reads: Home > About > Programs & Policies > Grants > Investigator Sponsored Research. The main heading is 'Investigator Sponsored Research'. Below it, a paragraph states: 'Pfizer supports Investigator Sponsored Research (ISR) projects that advance medical and scientific knowledge about our therapies.' Another paragraph explains: 'An ISR is a type of grant that supports an independent research study where the investigator or organization is the sponsor of the study and where Pfizer provides financial and/or non-financial support for the development or refinement of specific and defined medical knowledge relating to a Pfizer asset. This global program is open to all researchers who are interested in conducting their own research. This grant type is used as support for pre-clinical and clinical studies (including interventional and non-interventional), that involve a Pfizer asset (e.g., commercial drug, investigational drug, pure compound*).' A footnote reads: '*Pfizer has an extensive pure substance library that encompasses our publicly known compounds.' Below this is a section titled 'General Research' with the text: 'Pfizer also supports general research projects focused on the development or refinement of specific and defined medical knowledge unrelated to a Pfizer asset.'

2. Moved to the bottom of the screen and Click The Grant System Link

The screenshot shows the bottom of the Pfizer website. The navigation bar is identical to the previous screenshot. Below the navigation bar is a blue button with white text: 'Learn about our Competitive Grant Program and view open RFPs'. Below this is a horizontal line. Underneath the line is the heading 'The Grant System'. Below the heading is a large blue button with white text: 'Submit new or view existing applications through our Grant System' followed by an external link icon.

3. Create user account:

The screenshot shows the Pfizer login page. At the top right, it says 'First time user?' followed by a blue link: 'Create your password'. At the bottom left, there is a large blue heading: 'Please Log In'.

At the Study Details page:

Researching Use/Effects of a Pfizer Product?: Yes

Project type: Investigator Sponsored Research Pre-clinical/Clinical (includes focus on a Pfizer Drug or Compound).

Grant Requester Type: Compound only

The screenshot shows a navigation bar with the following tabs: Welcome Page, Introduction, Contact Information, Organization Information, Project Lead/Principal Investigator (PI), **Study Details**, Budget Details, Payee Information/Contracting Organization, and Certifications. Below the navigation bar is the "Study Details" section. Three questions are highlighted with red boxes and blue lines pointing to a summary box below:

- * Researching Use/Effects of a Pfizer Product?** Does any study objective involve assessing some clinical effect or outcome related to a Pfizer medicinal product (e.g., efficacy or safety)?
Answer: **Yes**
- * Project Type** Indicate which of the following most accurately represents your project. For guidance, please refer to the [Project Classification Decision Matrix](#).
Answer: **Investigator Sponsored Research: Pre-clinical/Clinical (Includes focus on a Pfizer Drug or Compound)**
- * Grant Request Type** Please select the type(s) of support you are seeking for this grant request. If you are asking for support that includes drug (i.e., commercially packaged or investigational product formulated for human use) or compound (active pharmaceutical ingredient only), you **MUST** select **Investigator Sponsored Research: Pre-clinical/Clinical (Includes focus on a Pfizer Drug or Compound)** as your Project Type (preceding field). Failure to do so will delay the review of your grant submission.
Answer: **Compound Only**

Pfizer Drug Of Interest (?) If your study has a focus on a Pfizer drug or compound, please select the drug or drugs from the list below. If your study does not focus on a Pfizer drug please return to the Project Type question and select a General Research option. If this is a compound request please select "Compound Request" below.

Please select answers to these 3 questions as the screenshot shows.
